EXPERIENCE

OfAshAndFire, USA, *Remote (Full-time)*
Full-Stack Developer, May 2025 - Current

- Develop a prototype application for the medical industry in the United States.
- Connect to different APIs and services with strict formats and protocols for managing patient data.
- Backend use of strategic design patterns with Ruby on Rails, TDD methodology with RSpec, testing measurement with simple coverage gem, linters with Rubocop etc.
- Frontend use with React and TypeScript of linters with eslint, prettier, and testing with vitest, styles with tailwind.
- Deploy to AWS using S2 service, using Ruby on Rails 8 and Kamal.

OutCode, USA, *Remote (Part-time)*
Full-Stack Developer, Dec 2024 - May 2025

- Develop different projects according to the client's needs.
- Create scalable and robust applications with good practices and easily maintainable from scratch
- Join different work teams and contribute quality code as well as efficient and disciplined work.

The Flock, Argentina, *Remote (Part-time)*
Full-Stack Developer, July 2024 - Oct 2024

- Developed a hybrid monolithic and API application for a company offering diversity training through a trivia-based video game.
- Implemented specific flows for administrators, dashboards for companies, and customized profiles for users.
- The project included 3 mini trivia games, designed as an API for game flow and React for the frontend.
- Actively participated in an Agile and collaborative environment, delivering the project on time and meeting required parameters.

Leap, San Francisco, *Remote (Part-time)*
Coordinator, March 2024 - Dec 2024

- As a Coordinator at Leap School, I am responsible for several key functions within our technical English training platform for software developers. My primary duties include:
- Session Creation: Designing and setting up tailored sessions for paid users to enhance their technical English skills.
- Error Management: Monitoring and resolving any issues or errors that arise during user sessions to ensure a seamless experience.
- Report Generation: Creating detailed reports to track user progress, session performance, and overall platform effectiveness.

Picap, Colombia, *Remote (Full-time)*
Teach Lead Full-Stack Developer, August 2022 - March 2024
